## **2010 SUMMARY:**

Rather than focus on extensive travel and participation in shows throughout the Eastern U.S. as had been done in prior years, the travel schedule was reduced to enable Elena to spend more time attending to her infant son who was born in 2009. Attention during 2010 was focused on training and confirming all movements of Grand Prix for Adesco C, plus participating in a few select clinics such as the Edward Gal Clinic that was conducted in connection with the FEI World Games event held in Lexington, KY.

During 2010, Elena also continued to teach and train for students, and one of her students, who had progressed from Training Level to FEI Level over the past four years with Elena, earned her USDF Silver Medal in 2010.
